Safety indicators (IDS)
Informative and training posters (AII)

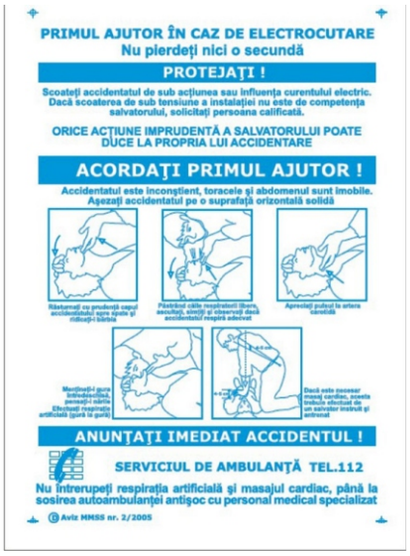

HG 971/2006

The informative and training posters and safety indicators are warning materials according to the graphics and symbols, colours and dimensions specified by regulations in force:
-EC Directive no. 92/58/EEC01992
-Romanian standards in force
-Minimum health and safety prescriptions at the work place
-General Labour Safety Regulations
The accompanying texts of the indicators can be in Romanian or bilingual (Romanian and English) or they can be customised according to the customer's demand depending on the application where they are used.

Safety indicators can be of the following types:

- Prohibitive
- Advisory
- Labour safety measures
- Firefighting
- General notifications
- First Aid
- Compulsoriness
- Combined indicators

Informative and training posters:
- "Works in de-energised power installations - Five golden rules"
- "First Aid in case of electrical shock"
represent protected industrial drawings.

All - "First aid in case of electric shock"

Generally , safety indicators (IDS) and informative and training posters (AII) may have the following dimensions:
- 150 x 100 mm (IDS)
- 200 x 150 mm (IDS)
- 200 x 300 mm (IDS)
- 350 x 500 mm (AII)

Safety indicators and informative and training posters can also be manufactured on:
- self-adhesive vinyl support
- PVC plate - 1 or 2 mm thick (IDS)
- galvanised steel plate - 0.3 mm thick (IDS)
- embossed marking (IDS)

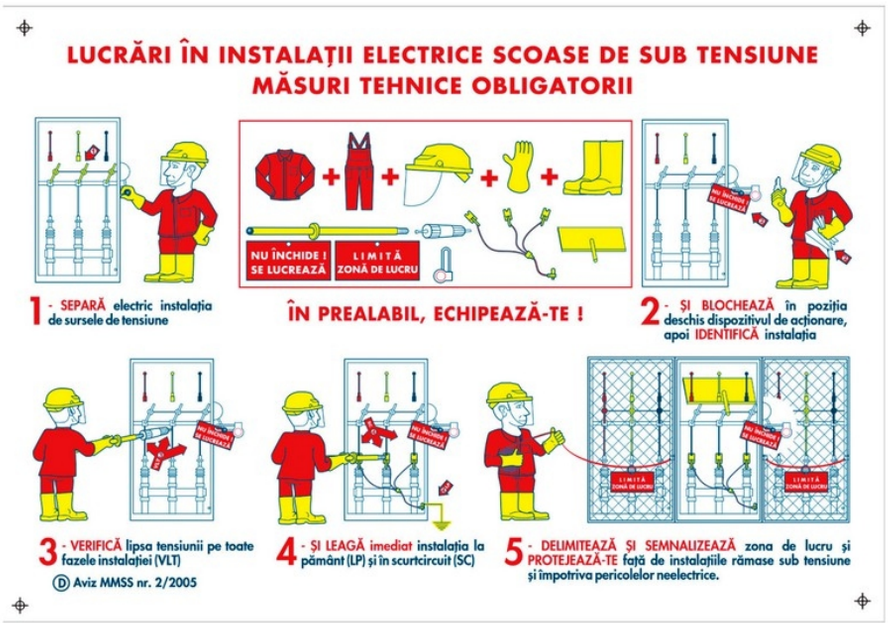

PROHIBITIVE IDS

ADVISORY IDS

LABOUR SAFETY MESURES IDS

All - "Works on de-energised electrical installations - Five golden rules."
