

Tools lanyards

Code: AY-001 / AY-002 / AY-003

The tools lanyards are made in various constructive types:

- simple (AY-001),
- elastic (AY-002),
- retractable (AY-003)

and are designed to allow the operators that work at height to attach in a simple and efficient manner the hand tools so in case are dropped during work, will not fall on the ground and eventually hit other operators working at lower levels.

The tools lanyards can be attached at the wrist (models AY-001, AY-002) or at the belt (models AY-002, AY-003).

Tags for periodic inspections - punching pliers

Code: AY-004 / AY-005

The tags for periodic inspections are flexible yet resistant small plastic tags that can be attached to equipment for working at height in order to mark the date of periodic technical inspection.

The tag can be marked in two ways:

- Option (a) contains the date of last carried out periodic technical inspection
- Option (b) contains the date for the next periodic inspection

On request, the labels can be personalized with the customer's logo.

The marking of the periodic inspection data is made by punching pliers (AY-005).
